SOUTHERN OPINION.

LETTER OF EX-GOVERNOR SWAIN, OF NORTH CAROLINA, TO HON. B. F. PERRY ON THE PROPOSED CONSTITUTIONAL AMENDMENT. CHAPEL HILL, N. C., Monday, Nov. 19, 1866. MY DEAR SIR :- I have received, and read with the attention it deserves, the copy of

your letter of the 26th ult., to C. W. Wood-Your analysis of the Howard Amendment is so clear, and the objections you present to its adoption so forcible, that there is little necessity for further discussion-none, in deed, for those who understand the peculiar condition of the state affairs at the South .-The great obstacle at present to a perpetual and perfect union is the want of accurate information at the North of the true condition and feelings of the Southern people. am satisfied that the framers of the Amendment, if they really knew, as statesmen ought to know, those for whom they legislate, would not for a moment urge its adoption, much

less insist upon it a a sine qua non. The third section proposes a double dis franchisement of nine-tenths of the people of North Carolina. I do not overstate the case when I assume that not one-tenth of those who would be regarded as falling within the range of selection under a system of unrestricted suffrage are eligible to office under the State or Federal Government. While all who gave aid or comfort to the insurgents, no matter to how great or how small an extent, have the right to vote, it is the right to vote, not for the men of their choice, but for persons selected from that tenth of the community, who, as a general rule, without any reference to political opinions, have no paramount claims to consideration, mental or moral. My acquaintance with prominent men throughout the State is, perhaps, as general as that of any other citizen, and yet I do not know of a single in tance in any one of the Congressional districts of a person who can honestly take the test oath who, in 1860, would have regarded himself, or was considered by others, as one of the number who might reasonably aspire to a seat in the na-tional councils. Is it any evidence of a want of loyalty to decline such a system of suf frage? It might seem strange if, instead of the privilege of selection from the tenth of our own, we were allowed to vote for citizens of another State to represent us. For one, I could name a score of citizens of other States of the American Union, of either po litical party, for whom I would much more willingly vote than for any one in this Congressional district who can give the evidence

of lovalty required by the test oath. Suppose the third section adopted, how many voters would avail themselves of what has hitherto been considered the inestimable traitor. OUR NEW U. S. SENATOR .- The reader has already been advised of the election of Hon, M. E. Manly as one of the U. S. Senators of North Carolina. The successful can didate is a gentleman of irreproachable character, thoroughly imbued with State rights principles, and more than ordinarily distinguished as a strong thinker. We doubt wnether any other citizens of North Carolina could bring to the duties of the position superior qualifications to those possessed by udge Mauly.

In a pure political sense, the Senator elect is far more acceptable to us than either of his opponents. It still appears to our minds, in spite of all this, that sound policy and the best interests of the State dictated the selection of Hon. John Pool. It was the occasion, both as to time and object, for a tender of the olive-branch for unity and peace at home, and should not have been lost. Besides, the very doubts which were suggested as to the present attitude of Mr. Pool, minor points of difference, would, in the event of his selection, have been strength and argument in the hands of Northern conservatives against Northern radicals. It would have been an unanswerable refutation of the great electioneering hobby of our enemies : that we still disloyal, still rebellious, still disposed to wreak vengeance on those who different from us during the war. The Leglature thought otherwise and as a consequence elevated another-a citizen whom we respect and admire, and whose views more nearly accord with our own than those of Mr. Pool. The wisdom of the course we snggested, however, has not been nor is it likely to be disproved. On the contrary, we sorrow that there is so much reason to fear that a month or two will show the forecaste of the Progress and the political heeedlessness and stupidity of the general asssembly .- Progress.

REASON WHY THE AMERICAN WATCH Made at WALTHAM, MASSACHUSETTS

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. Nor jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effective ness) and is therefore properly made. The watch is what all mechanism should be-ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres" "lepines" and "English Patent Levers," are perfectly well aware of the truth of

this statement. At the beginning of our enterprise more than ten years ago, it was our first object to make a thoroughly good tow priced watch for the million, to take the place os these foreign impositions; the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless elsewhere.

.Iow well we have accompolished this, may be understood from the fact that so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiceion that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION .- The public are cautioned to buy only of responsible dealers. All persons selling counterfeits will be prosecuted.

PATENT MICA ROOFING. THE NEW YORK MICA ROOFING COM-

THE NEW YORK MICA ROOFING COMPANY, (Established 1854,) are manufacturing under Letters Patent THE BEST ARTICLE
OF COMPOSITION ROOFING EVER OFFERED TO THE PUBLIC. It is adapted to every
style of Roof, steep or flat, and can be readily applied by any one.

The U. S. Government, after a thorough test of
its utility, have adopted its use in the Navy Yards,
and upon Public Buildings.

The Roofing is put up in rolls, and has only to
be nailed to the Roof to make a DURABLE FIRE AND

WATER-PROOF COVERING, We particularly recommend its use upon Buildings, Stores, Churches, Factories, Machine-Shops, Steamboat Decks, &c.

MICA ROOFING PAINT. For coating TIN, IRON, or SHINGLE ROOFS.

Body equal to three coats of Ordinary Paint. No Roof can rust under it, and Old Leaky Roofs may be made permanently water-proof and durable by its use.

The Paint requires no mixing, but is ready to be applied with the ordinary paint brush. Price, \$,00 per gallon, which will cover two hundred

Also manufacturers of BLACK LUSTRE VARNISH, TARRED FELT AND ROOFING PITCH. Discount to the Trade. Circulars and Price List furnished. Rights for countles sold at low rates. Address THE MICA ROOFING CO.,
